REELS.

The prices of any of the following Reels, which are designated "with click," with "drag," or "Nickel plated," include those additions.

We will put click, or drag in, or nickel plate any Reel, not designated as having these additions, at 50c. per Reel extra, for each or any addition.

All reels (excepting Nos. 11 to 27) are made with best quality screws, so that they can be taken apart if necessary.

All our reels are hand-made, the Metal is all "Cold-Rolled," not Common "Sheet;" the rubber is best quality and polished.

Patent Compensating Steel Pivot Balance Handle.**Plate 53.**

Reels become quickly worn at the bearings of the spool and gearing, and as usually constructed, are expensive to repair when so worn. The object of our invention is to provide for adjustment of the bearings.

so that any wear can be readily compensated, and the reels kept in good condition without expense; and to that end it consist in screw pivots combined with the reel as shown in Plates 53 and 63.
