PFLUEGER'S CYCLONE SPINNERS

No. F Spinner, suitable for Trolling or Casting.

PATENTED

No. G Spinner, suitable for Casting or Trolling.

No. T Spinner, suitable for Muskallonge and large fresh water game fish generally; also, very successful in the ocean, trolling for Weak fish and Striped Bass.

No. N Spinner, suitable for Casting.

No. AX, two No. 1 Nickel Spinners as on No. H, 4 ft. Piano Wire Leader with swivel, 2-0 H. P. Feather Treble Hook. No. C, same as B with one size larger Spinner. No. E $\frac{1}{2}$, same as No. E, except one size smaller Spinners. No. M $\frac{1}{2}$, same as No. M, except one size smaller Spinners. No. M Large, same as No. M, except one size larger Spinners. No. P, same as No. O, except has one size larger Spinner. No. P B, Top Spinner No. O Nickel, Bottom Spinner, No. O Brass; 1 ft. Piano wire leader with swivel, and No. 3 H P. Feather Treble Hook. No. R, same as No. B, except has one size smaller Spinner. No. S, same as No. H, except has a 4 ft. Piano wire leader with swivel instead of a silver plated shaft. No. W, Top Spinner No. O Nickel, Middle Spinner No. 1 Brass, Bottom Spinner, No. 2 Nickel; 4 ft. Piano wire leader with swivel and No. 2-0 H. P. Feather Treble Hook. No. X, same as No. H, except both Spinners are nickel. No. Z, same as No. W, except has a silver plated shaft and swivel instead of a 4 ft. piano wire leader.

The Cyclone Spinner is our latest invention, and is a decided improvement over any Spinner or Trolling Bait ever made. It spins in the air when casting, and on entering the water it immediately takes that struggling effect so killing on all game fish. It spins very freely, hence the best results are obtained by trolling slowly. The slot in the blades permits of free circulation on the under propellers, increasing the speed of the Spinner very materially. There are six wings, or propellers, bent to an angle giving the greatest speed and reflection. It is without question the EASIEST RUNNING, MOST ATTRACTIVE AND KILLING BAIT ON THE MARKET.

in tissue. If wanted sewed on
cards, add 50c net per gross
extra.

No. 6

No. 5

No. 4

No. 1

The cut above illustrates Pflueger's Patent Spring Attachment in position. Its advantages are many. It holds the blade at a proper spinning angle at all times. It is practically indestructible, the coil spring permitting the blade to go and come on the shaft when struck, thus fastening the hook well into the fish.

Pflueger's Clearing Ring

**Solid Brass Polished—Will
Save you Many Times Its
Cost in Tackle Re-
covered**

These Rings are used to clear the line and hook from snags. Put the fishing line through the slot in the neck of the ring after which close the latch, fasten a line to the eye in the lug, let the ring run down on the fish line to the snag and manipulate until hook is cleared.

No. 739.....Per Gross, \$63.16

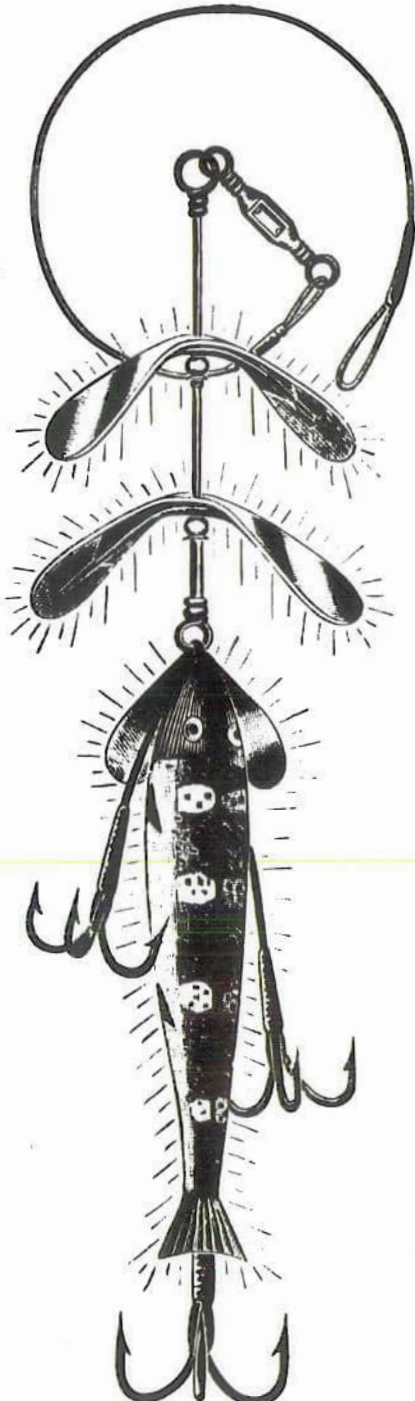

Packed—One dozen in a box.

Pflueger's Phantom Spinners

A Killing Combination for all Game Fish
Single

Double

Exact Size No. 1

Minnows made of best quality silk, painted true to life. This Spinner has all of the merits of the Phantom Minnow and our celebrated Akron Spinner, combined. The Double Phantom Spinner is especially killing; the blades revolving opposite to each other over the Phantom, make an attraction which game fish cannot resist.

Sizes....		1	2
No. 1019 - Single Luminous.....	Per dozen	\$ 8 30	\$10 55
" 1020 - Single Non-Luminous.....	"	6 85	8 40

Packed—Sewed six Squids on a Bronze Printed Card.
Two cards in a Fancy Box.

PFLUEGER'S OLYMPIA SPINNERS

Instructions for Baiting the Olympia Spinner:—Open out the Fins, which act on the eyelet joint, to right angle with the needle, then pass the needle through the bait, and gently and firmly close back the fins until the sharp points at either side penetrate the gills, and the fins close well into them. This is all required.

The Olympia Spinner is made of solid Nickel and in five sizes for Pike, Salmon and Trout. Is adaptable for almost any kind of natural bait, principally minnows. All the various kinds of bait can be used on any one Spinner and changed from one to the other any number of times without loss of time or damage to the bait. The pressure of the metal fins keeps the mouth of the bait closed. When mounting with a very heavy bait a small piece of wire, preferably copper, should be put through the lips of the bait and the eyelet; this, when the ends are pushed together, prevents mouth opening.

		Trout.	Small Salmon.	Salmon.	Small Pike.	Pike.
No. 436—Luminous, First quality.....	Per dozen	\$ 9 90	\$ 9 90	\$ 9 90	\$11 15	\$11 15
