THE FISHING ROD

MANUFACTURER.

We hereby guarantee to the purchaser of every Clark Rod which has stamped upon it our Trade Mark that it is made by skilled workmen out of the best material in all of its parts. And we do warrant it for the space of One Year. And will replace, free of charge, any part that proves defective or breaks while in actual service; if the breakage is in any way due to fault of material or workmanship.

Signed *Clark Rod Co.*

To Supersede All Previous Lists.

Please bear in mind that we are the MANUFACTURERS of nearly all goods in this Catalogue, and that they are made expressly for our RETAIL DEPARTMENT.

Those articles described in this list that are not our make are made to order and are carefully selected, and anglers can depend upon these goods being just as represented.

We endeavor to fill all orders promptly; but in the Spring and Summer months, when everyone "goes a-fishing," it is not always possible to send rods AT ONCE; and if anglers will please bear this in mind and send in their orders EARLY, they will greatly oblige us, save themselves unnecessary delay, and keep everybody good-natured.

Send in your rods to be repaired before April 1, if possible.

Twelfth Edition.

To Our Patrons.

Please read these instructions carefully. Address all communications and make all checks and money orders payable to T. H. Chubb Rod Co., Post Mills, Vt.

Correspondence.—Address your letters carefully, give your own name and address plainly; also, if more than one sheet of paper is used, put your name on each, and number the sheets. These instructions may seem needless, but we are in constant receipt of letters without address, name not signed, or letters containing money not sealed.

Remittances.—The safest modes of remitting money are by express, draft, money order, or by registered mail. Always mention amount of money inclosed.

Post Office Money Orders are absolutely safe, and, when sent, have them made payable at "Post Mill Village," which is our office as given in the post office guides. Money orders from foreign countries should be made payable at "West Fairlee" post office. Money orders can be procured at the following low rates:

Not exceeding \$2.50,	3 cents	Over \$10 to \$20,	10 cents
Over \$2.50 to \$5.00,	5 cents	Over \$20 to \$30,	12 cents
Over \$5 to \$10,	8 cents	Over \$30 to \$40,	15 cents
Over \$40 to \$50,	18 cents		

Express Money Orders.—These are absolutely safe, and can be obtained at any express office at the following low rates:

Any amount not over \$5,	5 cents	Over \$20 to \$30,	12 cents
Over \$5 to \$10,	8 cents	Over \$30 to \$40,	15 cents
Over \$10 to \$20,	10 cents	Over \$40 to \$50,	20 cents
Over \$50,	proportionately.		

Stamps.—United States postage stamps accepted in payment of goods to the amount of \$1, but we cannot use *foreign* stamps or *Canadian* bills.

Ordering Goods.—As far as possible order all articles in this list by number, and give name of same. Use our order sheets

when practicable, and take special pains in signing your name and address, and in giving directions how goods are to be shipped, whether by plain *mail*, *insured*, or by *express*. If goods are to be sent by plain mail, and our order sheets are used, draw a line across the word *mail* only, and if you want them *insured*, draw a line across the word *insured* also; if to be sent by express, draw a line across the word *express* only, and leave the others unmarked. Goods in lots less than one-half dozen will be charged by the piece.

Goods by Mail.—Most goods in this catalogue can be sent by mail as merchandise, anywhere in the *United States* or *Canada*, at the rate of one cent per ounce, up to four pounds in weight. When ordering goods sent by mail, please to inclose amount of postage, unless goods are advertised prepaid. In all cases where goods are ordered sent by mail, money to pay for same must be sent with order. If too much money is sent, it will be returned to you. All goods sent by mail, unless *insured*, are at purchaser's own risk.

Goods by Express.—Two or more rods or large packages can generally be sent by express cheaper than by mail.

C. O. D. by Express.—We send goods by express, C. O. D., with privilege of examining, but parties so ordering must in all cases send \$2 as a guaranty of good faith and to defray express charges in case goods are returned to us. The money advanced in such instances will be deducted from amount of C. O. D. bill. In no case will we send goods to parties not known to us, unless money accompanies the order. You will find it much cheaper to remit the whole amount, as you thus save the cost of return express charges on money. In all cases where money accompanies the order, if the goods do not prove to be entirely satisfactory, the same can be exchanged or money will be refunded when so desired. If more money is sent than is necessary to pay for goods, it will be returned to you.

Goods Exchanged.—We will exchange any goods in this list, when returned to us within ten days of receiving same, you to pay all express or mail charges.

Special Goods.—Customers *may* be charged extra for turned stock or trimmings when they differ in shape or dimensions from our regular goods. *No special goods, or goods made to order, when they differ from our regular goods, will be exchanged under any consideration,* and in no case can we take goods manufactured by other parties in exchange for our own.

Sending us Packages.—In sending us packages of any description, always put your own name and address on same, so we may know from whom it came; and, if sent by mail, have no letter or other written matter inside, as that subjects it to letter postage and also makes the sender liable to a heavy fine; and if sent by express, prepaid, ten cents must be added to the express company's rates (and paid to them) to pay cost of getting goods from station to our place. All express matter via "Thetford" or "Ely" on the Passumpsic Railroad.

Telegraph Address.—All telegraph communications to be sent via "North Thetford."

Acknowledge Receipt of goods, and inform us if satisfactory and received in good condition. We are always pleased to hear from our patrons in regard to catch of fish, working of Rods, Reels, etc. You will also confer a favor upon us by giving the names of your angling friends, and recommending our goods to them, if they have proved satisfactory to you. Any information you may want that is in our power to give will be promptly and cheerfully accorded.

Shall We Send by Mail or Express?

We pack Rods so as to be sent safely by mail, and, when ordered sent by mail, the amount necessary to pay postage and insurance must be inclosed, but we cannot send Tackle, like Reels, Lines, Flies, etc., in same box; these are nearly all sent with mail, prepaid; and if you wish package insured you must send 10 cents extra for same above that sent for insured mail for the Rod. When Rod is ordered by express we can put in Tackle, or two or more Rods can be put in same box.

Chubb's Insurance Turtle

Guarantees their Safe Arrival and in Good Condition.

Insure Your Packages.

Owing to a decision of the post office department, we cannot send FISHING RODS by REGISTERED MAIL, their decision being that no package that is too large to go in the LOCKED MAIL POUCH can be registered. Fishing rods are too long, but can be sent by plain mail as heretofore.

Wishing that our goods may reach our customers as cheaply as possible, and safely, we have decided to do what registration did not do, that is, to GUARANTEE or INSURE their arrival to the proper destination, and in good condition.

Ten Cents insures all fishing rods that can be sent by mail.

Ten Cents insures all other packages that can be sent by mail, whose value does not exceed \$20.

Special Rods.

We make a specialty of making Rods to order in either Split Bamboo or Lancewood.

Repair Work.

We do repair work on Fishing Rods of all kinds, whether our own or of other make, supply missing ferrules, new tips, or joints, do varnishing, rewinding, etc.

Although impossible here to give exact prices for doing repair work, we give below a table for the most common repairs on light and medium sized Rods.

Six-strip Split Bamboo Rods.

New Tips, . . .	best quality, \$2.00; second quality, \$1.00
New Joints, . . .	best quality, 3.00; second quality, 1.50
New Butts, . . .	best quality, 5.00; second quality, 2.50

Lancewood Rods.

New Tips, . . .	best quality, \$0.75; second quality, \$0.50
New Joints, . . .	best quality, 1.00; second quality, .70
New Butts, . . .	best quality, 2.00; second quality, 1.40

Rewinding and Varnishing.

This means where old windings are all taken off, old varnish all scraped off, then rewound and the proper number of coats of varnish put on to make a first-class job—one that will look as good as new.

Split Bamboo Rods,	best quality, \$2.50; second quality, \$1.50
Lancewood Rods,	best quality, 1.50; second quality, 1.00

Varnishing alone, 50 cents.

All work done at reasonable prices.

Six- and Eight-strip Split Bamboo Rods.

Chubb's "Trade Mark" Split Bamboo Rods are unexcelled for balance, workmanship, and in the quality of material. The above cut is a correct representation of the bamboo used in these rods, which is carefully selected from a large stock, many times finding but a few in a bundle of fifty, and anglers may easily understand why the cheap grade of rods now put upon the market are so uncertain; why one may sometimes prove to be first class and the next one from the same lot may prove to be spongy or brittle, and after a short usage become worthless. We wish our customers always to bear in mind that all articles upon which we place our trade mark are warranted to give satisfaction, and that we replace free of charge anything that does not prove to be as represented.

We cannot make extra joints and tips for these rods after the rod has been sent, unless the ferrules that go on the tip or joint are sent to us, so as to get the size; for, if there is a very little variation in the size of ferrules, they will not fit properly: it is much better to return the whole rod.

All rods in this list will have stamped upon the reel seat or butt cap our registered "Trade Mark."

We make all rods from the butts of selected Calcutta bamboo; none of the enamel is taken off in finishing or in fitting ferrules. These rods have our hexagonal cap and welt ferrules, which are far superior to the round cap; are nicely wound with fine silk, and finished with Chubb's improved varnish, which is impervious to water, making them waterproof; they are made to order and

hand finished ; made by good workmen, and nothing is left undone that will promote their strength, balance, durability, or beauty. We have many testimonials from anglers who have thoroughly tested our rods, and speak in high praise of their merits. Each and every rod is warranted, and any joint or other parts that do not prove entirely satisfactory will be replaced free of charge.

Take Notice.

All six-strip rods have Chubb's hexagonal cap and welt ferrules, with solid metal stoppers, and Chubb's metal reel seat, unless otherwise stated. Butts or hand grasps are wound with cane; all rods have nice grooved wood forms, which keep the joints straight and safe from accident. And all, with the exception of the salmon and combination rods, are put in our *new rod case*, which is covered with leatherine, and has caps and handle. All rods with nickel plated trimmings will be made with dowels, unless otherwise ordered. All rods with german silver trimmings will be made without dowels and with our waterproof ferrules, unless ordered with dowels; all rods have two tips.

The King of Rods.

Eight-strip Split Bamboo Rods.

Our new Eight-strip Split Bamboo Rod has proved to be the "King of all Rods"; being nearly round, its action is much better, it is stronger and more durable, and we believe it is unequalled.

The Trout Fly Rods are made with eight-strip butt and joint; tips are six-strip and corners slightly rounded. The tips used in these rods are very small and are nearly round when made of six-strip. All other rods are made of eight-strip throughout.

	Boxing and insured mail,50

The black bass angler's favorite. Three-joint; length, 8 feet 3 inches; weight, 8 ounces; anti-friction tie guides; reel seat above hand; no dowels.

(No. 32.—"LITTLE GIANT" BLACK BASS ROD.)

"Little Giant" Black Bass Rod.

No. 32.	Eight-strip only, German silver trimmings, . . .	\$15.00
	Boxing and insured mail,50

This rod is made according to the dimensions furnished us by Dr. Henshall, and was designed for black bass fishing in Lake Erie and in Southern waters; also as a light rod for sea fishing. Two-joint; length, 7½ feet; weight, 8½ to 9 ounces. The above cut shows the Ash and Lancewood Rod with reel bands.

Special Offer.

We will send Rod No. 28, with German silver trimmings, price \$13.00, and the "Henshall Van Antwerp" Reel, price \$15.00, to one address, ordered at the same time, for \$25.00; with the Eight-strip Rod, No. 28-8, price \$15.00, for \$27.00. We make this special offer better to introduce the "Henshall" Rod and Reel to black bass anglers. Also "Little Giant" Black Bass Rod, Eight-strip, No. 32, and the "Henshall Van Antwerp" Reel, for \$27.00, when ordered at the same time.

"Henshall" Black Bass Fly Rod.

"Chubb's Favorite Combination."**For Trout and Black Bass Fly Rods.**

No. 29.	Six-strip, German silver trimmings, . . .	\$24.00
No. 29-N.	Six-strip, nickel plated trimmings, . . .	20.00
No. 29-8.	Eight-strip, German silver trimmings, . . .	28.00
	Boxing and insured mail,70

With our short reversible butt or hand grasp, by which the reel can be used either above or below the hand; length of short butt, 12 inches; wound with cane, and has reel seat; length of rod, 10½ feet. One joint for butt, one second joint, two tips, for trout fly rod; weight of rod complete, 8½ ounces. One joint for butt, one second joint, two tips, for black bass rod; weight of rod complete, 11 ounces. Fly rod is ringed, wound with silk. Bass rod has tie guides wound with silk, welt ferrules.

We can give these rods our hearty recommendation. By using this short butt we get two well-balanced and perfect rods, and also have the advantage of using the reel either above or below the hand; this will be appreciated by anglers in the different methods of casting for bass and trout, and has met with favor with a large class of anglers who on a fishing trip wish to be prepared for trout or bass without the trouble of carrying several rods. By referring to page 27, the angler can see the style of this rod in Lancewood.

"Henshall Combination."

No. 38.	Six-strip, German silver trimmings, . . .	\$24.00
No. 38-N.	Six-strip, nickel plated trimmings, . . .	20.00
No. 38-8.	Eight-strip, German silver trimmings, . . .	28.00
	Boxing and insured mail,70

Same style as the Chubb Combination. Combines the Henshall Black Bass Casting Rod; length, 8 feet 3 inches; weight, 8 ounces; and the Henshall Black Bass Fly Rod; length, 10 feet 3 inches; weight, 8 ounces; has reversible hand grasp.

"Raymond Combination."

No. 39.	Six-strip, German silver trimmings, . . .	\$24.00
No. 39-N.	Six-strip, nickel plated trimmings, . . .	20.00
No. 39-8.	Eight-strip, German silver trimmings, . . .	28.00
	Boxing and insured mail,70

Same style as the Chubb Combination. Combines Trout Fly Rod; length, 10 feet; weight, 6½ ounces; and Bait Rod; length, 9 feet; weight, 7½ ounces. Fly part makes a fine rod for trout fly fishing. Bait part is just right for trout fishing in mountain streams, trolling, or black bass fishing. Has very light reversible butt with *reel bands* and hand grasp wound with fine cord.

"Raymond" Cane or Walking Stick Rod.

(ROD AND CANE COMPLETE.)

This is entirely different from any other cane rod made. Rod part is all concealed in cane, which is made of bamboo, and is but a trifle larger than the ordinary cane and of the usual length, elegant in appearance and a safe protection to the rod.

(LANDING NET HANDLE.)

After the grip is taken off and the rod part removed, the remainder can be used for landing net handle. We make a folding landing net, with socket to fit handle, that can be carried in pocket; or, we can also fit to same our collapsing landing net frame. The handle also carries the extra tip.

(ROD.)

The rod part is finely balanced, and anglers who wish to go as light as possible, and still have everything of the best and safely protected, will find this an elegant outfit, and will be much pleased with the rod.

Description.

Four-joint; length, 10 feet; for trout fly fishing, with extra tip and adjustable butt; weight, 6 ounces. The extra tip is a little shorter, making a fine trout bait or light bass rod.

Chubb's All Lancewood and Ash and Lancewood Fishing Rods.

All rods in this list will have stamped upon reel seat or butt cap our registered Trade Mark.

All our lancewood is selected and imported by our own agents; and, using so large a quantity as we do in the manufacture of all grades of fishing rods, we are enabled to place in these rods well seasoned and selected stock, straight grained, and free from knots. We believe that, with the exception of split bamboo, good lancewood is the wood *par excellence* for fishing rod purposes, having that power of elasticity combined with strength, we believe, to a greater degree than any other wood used in the manufacture of rods.

We leave all lancewood in its natural color, and finish with Chubb's improved varnish, which is impervious to water, making them waterproof. These rods are well made and well balanced, have Chubb's best trimmings, solid metal reel seat, well fitting ferrules, and are first class in every respect. We pack rods so as to be sent safely by insured mail. Two or more rods can be sent cheaper by express. These rods will be made with dowels, unless otherwise ordered, but will make without dowels when so ordered, at same price.

Chubb's Greenheart Rods.

We have had frequent calls for greenheart rods in the past, so will make the following patterns in greenheart: Nos. A, B, A $\frac{1}{4}$, B $\frac{1}{4}$, A $\frac{1}{2}$, B $\frac{1}{2}$, C, C $\frac{1}{2}$, C $\frac{3}{4}$, CC, D, D $\frac{1}{2}$, D $\frac{3}{4}$, DD, E $\frac{1}{2}$, F, G $\frac{1}{2}$, H $\frac{1}{2}$, P, P $\frac{1}{2}$; Nos. O, 1, 2, 3, two-joint rods, and Nos. 1, 2, 3, valise rods; Nos. 40, 40 $\frac{1}{2}$, 41, 41 $\frac{1}{2}$, 43, 43 $\frac{1}{2}$, 44, 44 $\frac{1}{2}$, 45, 45 $\frac{1}{2}$, 46, 46 $\frac{1}{2}$.

Prices are the same as for all lancewood rods.

In ordering these rods be sure to state "greenheart," or the regular lancewood will be sent.

In answer to the many inquiries we have received from anglers in regard to greenheart and lancewood, we will here say that greenheart is by many preferred to any other wood, but our experience with it has been that, although tough and strong, it is more apt to crook and become set than lancewood, and after usage has not that elasticity or recovery that good lancewood has. We have never found any wood that in strength, elasticity, and wear is superior or equal to first quality lancewood for rods, with the exception of split bamboo, which, if properly made, out of selected stock, stands at the head.

No. 43 ½.	Price, German silver trimmings, all lancewood,	6.50
	Boxing and insured mail,50

This rod is made according to the dimensions furnished us by Dr. Henshall, and was designed for black bass fishing in Lake Erie and in Southern waters; also as a light rod for sea fishing. Two-joint; length, 7½ feet; weight, 8½ to 9 ounces; reel seat above hand. No. 42 is shown on page 17.

"Henshall" Black Bass Fly Rod.

No. 44.	Price, nickel plated trimmings, all lancewood, welt ferrules,	\$4.00
No. 44 ½.	Price, German silver trimmings, all lancewood, welt ferrules,	6.00
	Boxing and insured mail,40

Three-joint; length, 10 feet 3 inches; weight with reel bands, 7 to 7¼ ounces; with metal reel seat, 7½ to 7¾ ounces; reel below hand, short ferrules, no dowels, ringed, cane-wound hand grasp. A sample of this rod was sent to Dr. Henshall, who pronounced it to be the *best* Black Bass Fly Rod he ever saw. Every rod will be made as near like the sample sent him as possible. In ordering, please state if you wish it with reel bands or metal reel seat.

"Chubb's Favorite Combination."**For Trout and Black Bass Fly Rods.**

(Cut of Rod on page 27.)

P.	Price, nickel plated trimmings, all lancewood,	\$8.00
P ½.	Price, German silver trimmings, all lancewood,	11.00
	Boxing and insured mail,	.60

With our short reversible butt or hand grasp, by which the reel can be used either above or below the hand; length of short butt, 12 inches; wound with cane, and has reel seat; length of rod, 10½ feet, one joint for butt, one second joint, two tips for trout fly rod; weight of rod complete, 8½ ounces. One joint for butt, one second joint, two tips, for black bass rod; weight of rod complete, 11½ ounces. Fly rod is ringed, wound with silk. Bass rod has tie guides wound with silk, welt ferrules, grooved wood form in cloth case.

We can give these rods our hearty recommendation. By using this short butt, we get two well balanced and perfect rods, and also have the advantage of using the reel either above or below the hand, which will be appreciated by anglers in the different methods of casting for bass and trout, and has met with favor with a large class of anglers who on a fishing trip wish to be prepared for trout or bass without the trouble of carrying several rods.

"Henshall Combination."

No. 45.	Price, nickel plated trimmings, all lancewood,	\$8.00
No. 45 ½.	Price, German silver trimmings, all lancewood,	11.00
	Boxing and insured mail,	.60

Same style as the "Chubb's Favorite Combination." Combines the Henshall Black Bass Casting Rod, length, 8 feet 3 inches; weight, 8 ounces; and the Henshall Black Bass Fly Rod, length, 10 feet 3 inches; weight, 8 ounces; has reversible hand grasp.

"Raymond Combination."

No. 46.	Price, nickel plated trimmings, all lancewood,	\$8.00
No. 46 ½.	Price, German silver trimmings, all lancewood,	11.00
	Boxing and insured mail,	.60

Same style as the "Chubb's Favorite Combination." Combines Trout Fly Rod, length, 10 feet; weight, 6½ ounces; and Bait Rod of 9 feet in length; weight, 7½ ounces. Fly part makes a fine casting rod for trout fly fishing. Bait part is just right for trout bait fishing in mountain streams, trolling, or black bass fishing. Has very light reversible butt with *reel bands* and hand grasp wound with fine cord.

Ladies' Rod.

No. 47.	Price, nickel plated trimmings, all lancewood,	\$5.25
No. 47½.	Price, German silver trimmings, all lancewood,	7.25
	Boxing and insured mail,40

Three-joint; length, regular, 10 feet, or 10½ feet double handed; weight, 8 ounces; two tips; put up in grooved wood form in cloth case.

This rod is made after suggestions by Henry P. Wells, in *Forest and Stream* of October 8, 1891, in which he favored for a ladies' rod one of medium weight and with extra butt, double handed. Thinking it a good idea, we have made one like the above cut, which can be used single or double handed as required.

(Rod O.)

Trunk Rod—Combination for Trout and Bass.

- O. Price, nickel plated trimmings, \$4.00
Boxing and insured mail,50

Five-joint, seven pieces; length, 10 feet; weight, 13 ounces; butt, second and third joints ash, rest lancewood; butt wound with cane; reel seat above hand; tie guides; in cloth partition case.

Reversible Butt or Hand Grasp.

This butt piece is made by having two ferrules inserted inside of hand grasp, one in each end. These ferrules are of the same size, so that the center ferrule on the butt end of the first joint will fit either end, and by simply turning the hand grasp, you can have the reel above or below the hand, which will be appreciated by anglers in the different methods of casting for black bass. It is also used to make a combination black bass and trout fly rod, by having different joints which fit the same hand piece. It is made of light wood, whipped with cane; has a solid metal reel seat, and makes a nice hand grasp. Length, 12 inches. Two center ferrules go with butt, which fit the ferrules inside; also has metal stopper for one end.

Price, nickel plated trimmings, \$2.00
German silver trimmings, 3.00

Will furnish this hand grasp for trout and black bass fly rods, with nickel plated trimmings, \$1.00 extra. German silver trimmings, \$2.00 extra.

“Good”***Six-strip Split Bamboo Rods.***

The rods described in this list do not have our trade mark, but they are good rods for the money. We warrant them to be the equal of rods sold at these prices, and we believe that in balance, workmanship, and material they are much superior and are the equal of many so-called high grade rods. We do not list in this catalogue any of the cheap grade split bamboo or lancewood rods, as we do not wish to sell them to the angler at any price; but recognizing that there is a demand for a medium grade split bamboo and lancewood rod that will give satisfaction, we present this list. They are all three joint rods, have two tips each, silk ringed, and well wound between rings, cane wound hand grasp, metal reel seat, welt ferrules; put up in grooved wood form and in cloth case.

Cork hand grasp for any of these rods, 50 cents extra.

New rod case, 75 cents extra.

(HEXAGONAL CAP AND WELT FERRULE.)

Hexagonal Cap and Welt Ferrules.

For Six-strip Bamboo Rods.

Our Hexagonal Cap Ferrules are far superior to the round cap, as it obviates the necessity of trimming off the corners of the bamboo, thus giving greater strength and durability to the joint or tip, by preserving the enamel on the bamboo unbroken. It also adds to the appearance of the rod, as it harmonizes with the general makeup.

Reels.

In ordering reels, please to order by number; also number of yards, and if in brass or nickel plate. There is some complaint among anglers that reels do not hold the number of yards of line that they are advertised to hold. We will here say that they are measured to hold the smallest size line, and that a medium size line is about twice as large as the smallest size, therefore for a reel to hold 50 yards of medium size line, you should get an 80 or 100 yard reel, and for one to hold 100 yards, a 150 or 200 yard reel. We will send any of these reels by mail, postage paid, upon receipt of price; those who want package insured must send ten cents extra for same. These reels are not all our own make, but are the best selections from the best makers, and we take pleasure in presenting the following varieties from which to select.

(REEL No. 18.)

Reel No. 18—Automatic.

We have had some requests from anglers for an automatic reel, and we have selected the Yawman & Erbe reel, the one that the "little finger does it," as being the best of this style. Those wishing bait rods made, and intending to use the automatic reel, should have them made with reel seat below hand, or our reversible butt, as it can then be used either above or below.

(INSIDE OF REEL NOS. 24 AND 25.)

Something New in the Construction of Click Reels.

These we have designed especially for the trout fisherman, and they are so constructed as to make the bearings absolutely sand proof; consequently there is no possible chance for wear or for the reel to get out of order. These reels we make both in German silver and aluminium, and our cuts illustrate the reels as a whole and in parts. The axle of spool is made hollow, and fits like a sleeve over steel bearing on left hand plate, thus taking the strain from off the screws, which so frequently work loose by the wrenching motion of the handle when fast to a fish. Click and spring are of steel. To oil the reel, remove the screw that holds the handle. Reel has safety bands.

Aluminium Reels.

A fit companion for our $4\frac{1}{4}$ ounce "Raymond" Rod; weight of reel, from $1\frac{3}{4}$ to 2 ounces. Aluminium is not acted upon by air or water, either salt or fresh; is not affected by nitric or sulphuric acids; does not tarnish by handling, and is about one-half the weight of German silver.

"Henshall-Van Antwerp" Black Bass Reel.

Patented Sept. 27, 1887, No. 370,684.

Designed by Dr. J. A. Henshall and William Van Antwerp. Four multiplier, German silver, steel gears, steel pivots, running on steel points, adjustable click and drag; very free running.

Put up in leather case. Price, \$15.00.

"Henshall-Van Antwerp" Par Excellence Reel.

The general appearance of this is the same as the original "Henshall-Van Antwerp." The change is mainly in the interior construction. The bearings are agate, so there is no possible chance for wear. The gear is made of gun metal and the pinions of hardened steel. By removing the handle side-plate, which is done by removing four screws, the spool can be withdrawn, leaving the frame of reel intact, thus avoiding any displacement of parts in putting reel together again, which sometimes happens with anglers; in fact, the reel cannot get out of repair with ordinary use, and ought to and will last a lifetime.

Four multiplier. Price, \$25.00.

Common Flies.

We have the following named flies, suitable for black bass and trout, tied on Nos. 2, 4, 6 and 8 Sproat hooks, which we claim to be far superior to many flies that are much higher priced. They are well tied on short but good gut. In ordering, mention size hook wanted. When ordering an assortment of a dozen or more, we place these flies in envelopes, made in the shape of fly hook; each fly is held separate and name of fly printed on envelope; one of the handiest articles out for carrying flies.

Price, on No. 6 or 8 hook, . . . each, \$0.05; per dozen, \$0.50

HOLLOW POINT LIMERICK HOOKS

Hooks on Gut—Extra Fine.

These hooks are all of Harrison's first quality, imported and snelled to our order. Only the best gut is used in their manufacture, they are tied by skilled workmen, and we believe that these goods are unequaled for strength and durability.

The twisted gut, 3-ply, is made by twisting together three strands of best quality gut, and is the strongest hook on gut made. For sizes, see drawings of hooks, which are exact size.

We pack hooks in cardboard box, and send by mail, postage paid.

Hooks are in packages of one-half dozen each, and we cannot receive orders for less than one-half dozen of a size.

"Price's" Tin Tackle Cases.

These are fine and strong cases, handsomely japanned, with gold stripe. The Gem and Acme have patent snap-locks; no clasps or padlocks; always locked when closed.

(POCKET CASE—ONE SIDE.)

(POCKET CASE—OTHER SIDE.)

Pocket Case, Improved.

Size, $7\frac{3}{4}$ inches long, $3\frac{3}{4}$ wide, $1\frac{3}{4}$ deep, outside measurements. This is a double-lidded case, combining two cases in one, one side being for the fly-hooks, leaders, etc., the other for spoons, loose hooks, sinkers, floats, etc. The cork prevents the hook points from rusting or dulling, and holds them in a convenient manner.

The above cuts show arrangement of *both sides* of case.

Price, \$1.50; sent by mail, 15 cents extra.

(GEM CASE.)

(ACME CASE.)

Gem Case, Improved.

Size, 9 inches long, 6 wide, 5 deep, outside measurements. This case carries one large or two small reels, floats, bluefish squids, sinkers, gangs, snelled hooks, etc., adapted for either fresh or salt water fishing. In cut, 1 and 2 are sliding doors, securely protecting the hooks and flies, and yet always ready for use; No. 3 is a shallow tray, with cross wires for leaders, etc., as shown in pocket case. No. 4 is removable division; No. 5 is a shallow tray; beneath tray 5, at bottom of case, is a division separating it into two parts; one side is provided with cork for gangs, the other is convenient for large sinkers, floats, etc.

Price, \$4.00; too large and heavy to send by mail.

Acme Case, Improved.

Size, 12 inches long, 8 wide, 5 deep, outside measurements. This case carries large and small reels; also a space for almost everything in the tackle line, separately, including flies and snelled hooks, tools for repairs, cigars, or pipe and tobacco. This case will carry all you will probably ever use. In cut, 6 and 7 are trays which fit into space marked 9; the bottom of this space 9 is fitted with cork for gangs, spoons, etc. No. 8 is a shallow tray for leaders, lines, etc., as desired; No. 10 is a removable division; both sliding doors are open in cut, showing arrangement for flies and hooks, similar to the Gem.

Price, \$6.00.

Price, \$1.50, by mail, postage paid.

Landing Net.

Three-fold brass, nickel plated frame, with net; bamboo tip case handle 4 feet in length; good solid hinges; first-class. Price, \$2.50.

Steel Frame Collapsing Landing Net.

Patented November 25, 1890.

Our new Steel Frame Landing Net is undoubtedly the handiest, best, and most durable landing net frame in the market. The above cut shows frame all jointed ready for use, and also put up in cloth case ready to carry, with net attached to frame; or net can be removed, if desired. Has 4-foot jointed handle. Frame can be easily and quickly detached.

Price, with net, complete, \$2.00. Mail, extra, \$0.30.

Oiled Silk Nets.

Oiled Silk Nets for any of the above frames, instead of linen, \$0.50 extra.

Wooden Frame Landing Net, with Rubber Cord Handle.

Wooden Frame Landing Net, with rubber cord to pass over shoulder, which will stretch enough to reach and land a fish without removing the cord from the shoulder.

Price, with linen net, complete, \$1.00. Mail, extra, \$0.15.

The "League" Net.

This net, patented Sept. 4, 1894, was designed by John W. Titcomb, St. Johnsbury, Vt., and F. A. Pearsons, Rutland, Vt. Mr. Titcomb is State Fish and Game Commissioner and Secretary of the Vermont Fish and Game League, and for the latter organization the net is named.

It is, as you will see by the cut, of entirely new and novel design ; the frame and net are wholly concealed in the handle, making a convenient parcel to carry, and can be strapped up with your rod. The handle is a brass tube, nickel plated, about $1\frac{1}{8}$ inch in diameter by two feet long. The net frame is made of highly tempered steel, which springs into position when drawn from the handle, and cannot collapse until drawn back into the handle. By pulling on a cap in one end of the handle, frame and net appear ready for use. By pulling on cap at reverse end of handle, the net disappears within the same. By unclasping spring catch from cap, drawing net frame from handle, running end of chain through buttonhole of coat and refastening the cap, you have a net all secure as used while wading streams. It requires but a second to open or close the net, and but two seconds to change it into a wading net or the reverse. Two nets in one, and each better than any other of its kind. Every angler should have one.

Price, with net all complete, by mail, postpaid, \$2.50.

These nets can be made for use of naturalists and collectors.

Rudolph's Floating Minnow Bucket.

Will not sink. Free circulation of air or water. When you arrive at the fishing grounds, the inside bucket can be placed in the water; it will not sink, and will keep the minnows lively.

Varnish.

Chubb's Improved Varnish, put up expressly for varnishing fishing rods. This is a superior varnish; it is from hard gum, of good quality; it is old and well settled, light in color, and of good body. One of its strong points is its drying quality. Put up in bottles, enough to varnish three or four rods.

Price, 25 cents; sent by mail for 15 cents extra.

DIRECTIONS.—Spread lightly with camel's-hair brush; allow plenty of time to dry. Keep free from dust and wind. If a very thin varnish is desired, thin with spirits of turpentine.

Stain and Polish.

Directions for preparing the wood, and applying our stain and polish: Fill the grain of the wood with whiting and water, mixed to a thin paste; allow the filling to dry before removing the surplus, which can be done with lubricating oil. Dry the surface with a cloth. Apply the stain and polish with a wad made of cotton stocking, until a sufficient number of coats have been applied to give a good body for rubbing down. Give ample time between each coat of the stain and polish to allow it to dry. If a very nice polish is desired, rub the surface smooth with pulverized pumice-stone and water; after drying and removing the pumice-stone, rub briskly with the dry hand, which will give a high polish.

Price of stain and polish combined, per bottle, 25 cents; sent by mail for 15 cents extra.

Box pumice-stone and whiting, price, 10 cents.

Dodge's Ferrule Cement.

This cement was designed especially for fastening fishing rod ferrules, and has many advantages over shellac, gutta percha or rubber cement. It melts at a low heat, flows readily, clings well to wood and metal, and does not become brittle on cooling, in fact is the only successful cement yet produced.

DIRECTIONS FOR USING.—Warm the rod where the ferrule is to be fastened and the cement at the same time, at a flame, rubbing a thin coating on the rod; warm the ferrule and rub some of the cement on the inside with a stick; now warm both rod and ferrule until the cement flows; push the two together as far as wanted and warm again. Wipe off the surplus cement while hot. The rod may be used in five minutes, although the cement becomes firmer if a longer time is allowed. A ferrule may be removed by heating in the flame of a couple of matches.

Price, 25 cents a roll. Made only by T. H. Chubb Rod Co., Post Mills, Vt.
